THE FINAL PART OF THE MONSTER ENERGY STORY

The dedication and skill of the LAS team finally paid off when it was all finished and ready to go. Before it could go the driver had to have a quick lesson on the mechanics and with the operational side of all the control switches and buttons. The driver left LAS with a massive smile on his face (lets face it not many people get the chance to drive such a prestige vehicle for a living). It was dark when it left making its way to catch the ferry so as to arrive at its first event the MotoGP where it would be entertaining many VIP guests.

F1 champion Lewis Hamilton along with the 2009 world super motor sport champion Cal Crutchlow visited and left their autographs on the wall.

Its next event was a rock festival, with the sound system that was installed in the Prevost I am sure it felt at home and enjoyed the loud rock music.

The Prevost returned to the LAS workshops for a few extra additional touches before going off to Munich for the X-Games. This is where Ken Block, better known to some as Kenny from the Block, had chance to go on board.

As far as I know, at the moment, it is abroad and has a full busy calendar until mid October. Its next journey then will be to come back to LAS for a rest and a service. Let's see if the wall is full of famous autographs then!
