

AND IT'S HELLO FROM US

Franc and Lisa Culshaw -Camping Parc Verger

Welcome to Franc and Lisa

When you talk about lifestyle change, it's usually about adding a handful of blueberries to your breakfast or walking the last bus stop home to keep fit.....We've done lifestyle change, and we're loving it.

Seven months ago we were both working full time, Franc as a self employed electrician and property developer and me as a retail night manager, we had a house, family and friends near by and a life that was full of stress and constraints due to our working hours, even our free time was governed by the English weather, our joint love of all things camping, (we have both had tents, caravans, motorhomes and rvs) was often spoiled by the cold, wind and rain.

We were desperate for a change, knew it, but didn't know quite what that change would be, or how dramatic until Franc saw the advert in the ARVM Magazine in November for the sale of Parc Verger, and tentatively asked the question "Do you fancy buying a campsite in France?" of course it was never going to happen, he was dreaming, so I didn't have to think much about it, was I brave, mad or somewhere in between, my immediate reply was " yep, I'm up for it!", well, much to my surprise, and our delight, the planets have aligned, it was always going to happen, the house sold, we are now

GUESTS ENJOYING THE POOL

FRANC CUTTING THE GRASS

NIGHT FALL AT PARC VERGER

full timers in our rv, I was made redundant out of the blue, and Franc wound up his business and set about selling our worldly goods in order for us to move to France to our new life, we even managed to fit in getting married, though the wedding reception will wait until October, any excuse to get our families and friends over to stop at Parc Verger!

So here we are in France, we have lots of sunshine, beautiful countryside, peace and quiet, a new life, new venture, new language, new friends, a new way of communicating with our old friends, (they won't be forgotten!), new places to explore, new ideas, a new lease of life for us both, and it's great!..... Now that's what you call lifestyle change, and not a blueberry or bus stop in sight!
