Telephone: 0041 274 731154

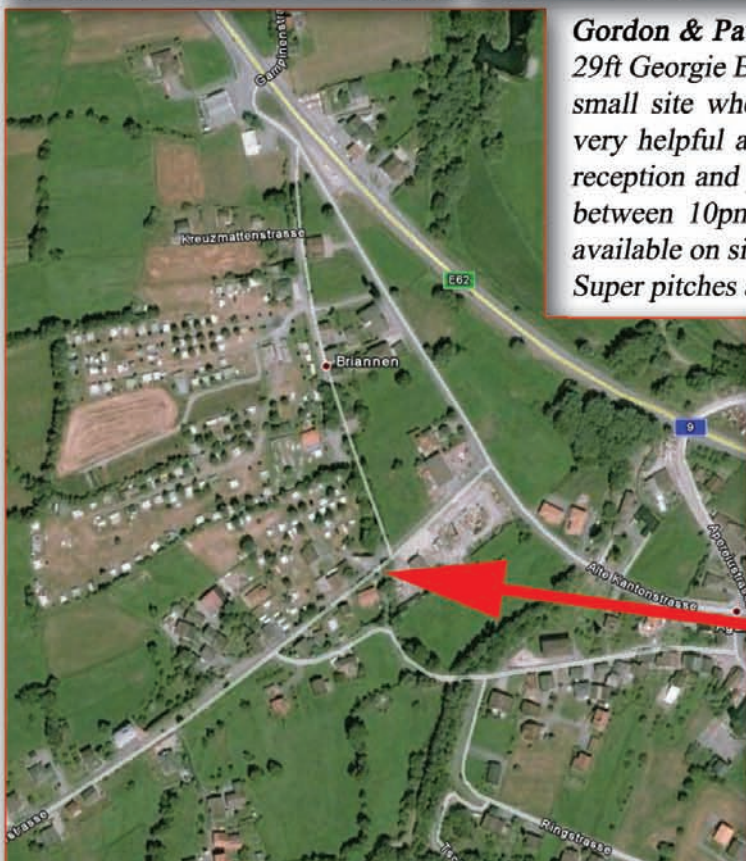

DIRECTIONS:

When approaching from the North East direction (Berne) there is a car transporter train tunnel known as the Lötschberg Tunnel - but try as I might I cannot find if it will carry anything as large as an RV. If you know better, please let us know soonest.

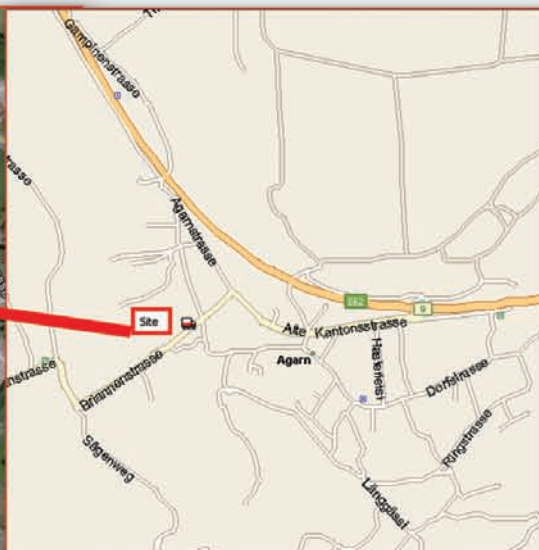

Follow the A9(E27) to Martigny, then take the A9 (E62) to Sierre - and continue on the E62 through Susten.

After 2km by the Hotel Relais Bayard, take the right-hand lane (Agarn & Feithieren). Ignore the signpost for Camping Torrent and follow the Alte Kantonstrasse sign-posted Agarn.

Turn right at the site sign-post into Briannenstrasse and the site is 200 metres ahead.

Gordon & Pauline Sivyer visited this site in 2007 in their 29ft Georgie Boy Pursuit and reported that it as an excellent small site where the site owners, the Schawalders) were very helpful and spoke good English. Good satellite TV reception and protected by a security barrier which closed between 10pm and 8am. There is a WiFi LAN system available on site as well as an Internet computer available. Super pitches are available based on grass over gravel.

Maximum RV length accepted: at least 30ft (10m) - 16 amp - grass/gravel
