DIRECTIONS:

From Haverfordwest take the DALE road (B4327) which forks left just outside the town, and after approximately 7 miles the site entrance is clearly marked on the right.

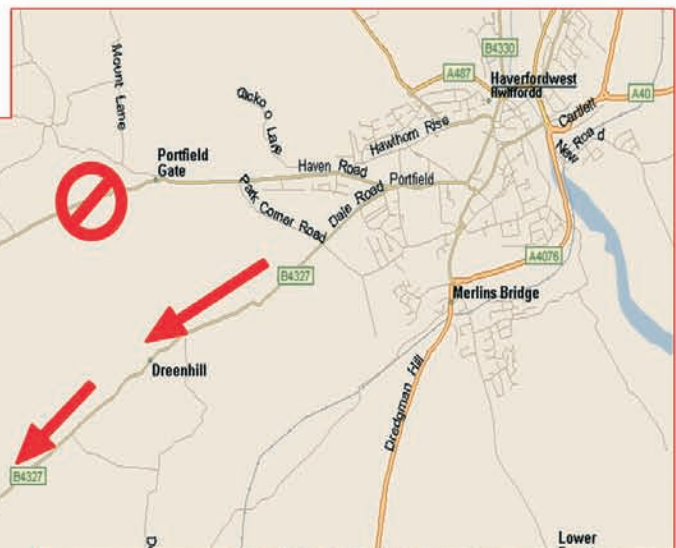

(Please do not take the Broad Haven road as you would have to negotiate a very steep and difficult bend).

Steve Richardson and his family visited this site in Autumn 2010 in their 32ft Itasca Sunseeker and reported that it was a very nice site but very remote - without a tow-car, you would really be stuck out on a limb! The site was immaculate with the best maintained grass that I have seen for ages - the RV pitches were massive. The toilet block was a bit dated but in keeping with the rest of the site they were very clean with ample hot water etc. There is a small but adequate enclosed dog-walk on site - the roads off-site were very narrow and busy with fast cars - no pavements!

The entrance is on your right

RVs should turn immediately left on going through the entrance gates.

Massive pitches absolutely dwarf Steve Richardson's 32ft Sunseeker
