DIRECTIONS: *Sat Nav users - see the note below*

Approaching from Exeter on the A30: At Innis Downs (Junction with A389/A391) approach the roundabout and take the 1st exit (A391) signposted St Austell. Follow this road for approximately four miles, then at the roundabout at the junction with the B3274 take the 1st exit (A391). Follow this road for approximately 1 mile and at the next roundabout turn right (A391) and continue along this road for 2 miles. You will need to continue straight across the many roundabouts. Finally after a total of about 8 miles on the A391 you will arrive at the traffic lights where you turn right onto A390 signposted Truro. Proceed along this road through three sets of traffic lights then at the next roundabout take the 2nd exit and continue for 1 mile. You will pass Asda on the left-hand. Continue over the first roundabout and carry on along this road. At the next roundabout (McDonalds) turn left towards Mevagissey on B3273. Continue along this road for several miles until you arrive at Pentewan where you will start to climb a hill. At the top of the hill turn right - and Seaview International Park is signposted from here onwards. The last section does get a tad narrow so extra care will need to be taken.

Rhina and Rachel Ventura-Brown visited this site in their 40ft Fleetwood Excursion in 2013 and enjoyed their visit so much that they recommended it for inclusion in the Guide. **One huge word of caution:** If you are using Sat Nav or online map services, please be

very careful to avoid Mevagissey town centre. The inner streets are exceedingly narrow and large rigs with toads will cause potentially embarrassing blockages.
