### **DIRECTIONS:**

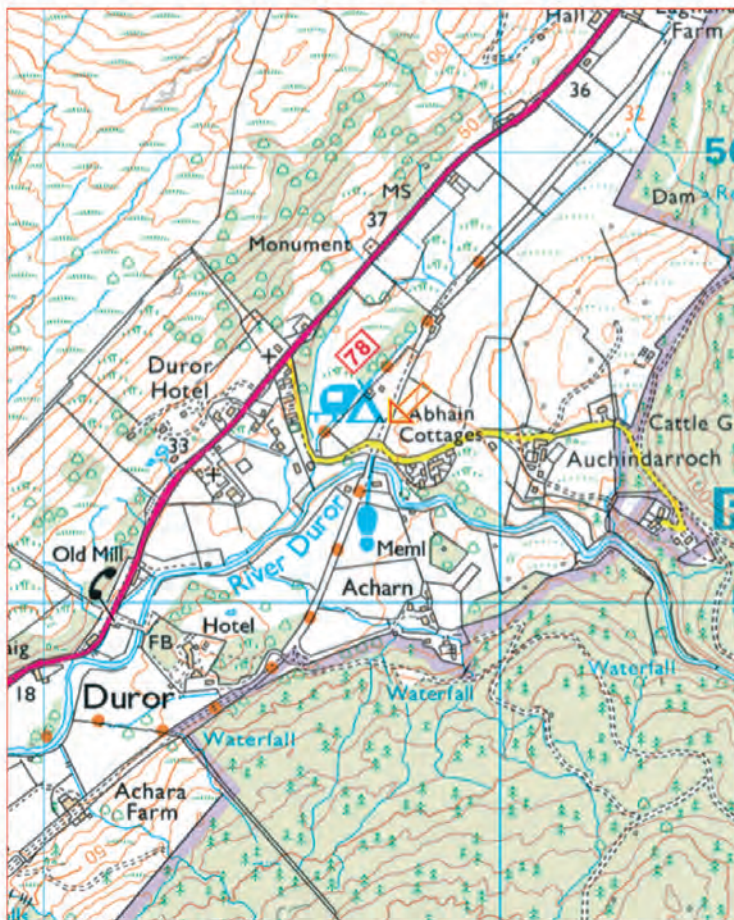

**Approaching by the A82:** take the A828 at Ballachulish bridge roundabout for five miles. Watch for Achindarroch road signs and site signs.

**Approaching from Oban:** take the A828 over Connel Bridge for twenty miles and watch for site signs.

This friendly, family run site lies in a quiet, picturesque location at the foot of Glen Duror. The park is well sheltered and is a real sun trap in the summer months. A track, which is part of the Sustrans cycle network, has recently been constructed and runs

parallel to the park. It is an excellent, safe route for walking your dog, jogging and cycling and will eventually join up with the Ballachulish and Appin routes. Our site welcomes Motor homes, Caravans, Trailer tents, Tents and even American sized RV's. Dogs are also welcome. The shower block incorporates waterless urinals and shaver points in the Gents, hair dryer in the ladies and automatic lighting, self closing taps, central heating and insect mesh screens in the double glazed window units. We pride ourselves on the cleanliness of our facilities and they are checked numerous times throughout the day. The disabled toilet also includes baby changing facilities. The 'campers' kitchen includes sinks for food prep and dishes, a sink for hand washing clothes, washing machine and tumble dryer, fridge freezer, toaster, kettle, microwave and a small reading library where you can exchange your books and magazines.

The Park is licensed for 40 touring pitches (big pitch sizes), of which 37 have electrical hook-ups, and provides an ideal base for local attractions such as the Nevis Range, Glen Coe, the Jacobite Steam Train (as seen in the Harry Potter films), the Cave of Sculls (which is the deepest cave in Scotland) and Cuil Bay. WiFi is available on request. For those of you who enjoy light exercise, there are many varied walks up and around the Glen, which are adjacent to the park. For the more adventurous, the area, which is known as the outdoor capital of the UK, has many outdoor pursuit activities which include Walking, Climbing, Sailing, Diving, Mountain Biking and Canoeing. We aim to provide the best in service and pride ourselves in the friendly atmosphere at the park. We look forward to meeting you and hope you enjoy your stay.

Max RV: 40ft (12m) / EHU: 10amps / Base: Gravel hardstanding / Black tank dump
