

Travelworld Motorhomes invited customers old and new to the UK premier launch event for their brand new Hymer B-DL motorhomes over the weekend of 8-10 July.

The customers who visited over the weekend were the first to view the new B-DL 588 & B-DL 444 models in the comfort of Travelworld's large showroom and take advantage of several breakout seminars explaining the benefits of this new model.

Prior to the weekend Frank Venter, HYMER head of design said; "The revolutionary new lightweight 'B Class Dynamic Line, is one large step for us, one giant leap for the industry.

Thomas Buschle, HYMER Project Manager said; "In the best B-Class tradition we wanted to create a premium motorhome that should not just outshine others thanks to its weight and design, but also impress with its practical features".

The 444 layout has been designed for the UK market and includes in the sub 6 metre overall length, the largest kitchen offered on any Continental motorhome and a full size garage space. The B-DL 444 is the new and updated version of the much loved HYMER-B 544 that has become one of the best-selling HYMER models in the UK over a 25 year period.
